DIGITAL MARKETING & SOCIAL MEDIA EXPERIENCE

Marketing Coordinator & Content Creator (5 months) *May 2026 - Sept 2026*
Cheemo's Pizza | Remote

- Developed **promotional copy and marketing materials** for a small food business, creating customer-facing messaging for print and digital use.
- Designed **branded pamphlets, promotional materials, and visual content in Canva**, translating product offerings into clear and engaging customer communications.
- Wrote and edited concise **menu and promotional copy** to highlight products, pricing, and offerings while maintaining a consistent brand presentation.
- Managed the content and design process from concept and **copy development through final layout**, adapting materials to suit the business's target customers.

Social Media Manager & Digital Content Creator
University of Waterloo Student Organizations | Waterloo, ON (4 years) *Sep 2021 - May 2025*

- Managed social media content and audience engagement for university organizations, promoting events, activities, and student initiatives.
- Planned and published Instagram **posts, Stories, Highlights, promotional graphics, interviews, videos, and interactive content.**
- Created branded digital artwork and promotional assets using **Canva**, adapting content to different campaigns and audiences.
- Developed audience-engagement content including **interviews, questionnaires, polls, and interactive** Stories to encourage participation.
- Edited and produced short-form video content using **iMovie** for social media and promotional use.
- Supported social media and promotional activities for **ACE A Cappella, University of Waterloo Arts Student Union, Arts Faculty events, and student connecting initiatives.**
- Managed content from concept and copywriting through design, editing, publishing, and audience engagement

Operations Manager (13 months) *Feb 2025 - Mar 2026*
Canadian Heart Care Clinic | Waterloo, ON

- Coordinated communications between **4 or more departments**; front desk, technicians, cardiologists, billing, ensuring accurate, timely information flow under fast-paced, high-stakes conditions.
- Tracked and reported on **multi-service operational KPIs daily**, maintaining **more than 95 percent SLA compliance** and proactively identifying bottlenecks for continuous improvement.
- Administered billing, insurance claims; OHIP or private, and payment reconciliation, resolving discrepancies to maximize revenue accuracy and patient satisfaction.

Graphic Designer (4 months) *Jan 2024 - May 2024*
Dematic KION Group | Waterloo, ON

- Independently managed and delivered **60+ branded content pieces** for enterprise certification partners, overseeing the content pipeline from initial brief through final publication.
- Created **audience-focused digital and instructional content** that translated complex information into clear, engaging, and visually compelling communications.

- Applied **brand guidelines** and **messaging standards across content to maintain a consistent brand voice** and user experience across digital materials.
- Collaborated with engineering and operations subject-matter experts to research, develop, and refine content, translating technical information into accessible communications for target audiences.

Marketing & Digital Content Coordinator (11 months) *Sep 2021 - Aug 2022*
University of Waterloo - IT Office Helpdesk | Waterloo, ON

- Planned and managed web and social media content from **copywriting through design and publishing.**
- Developed and published multi-format content (newsletters, service catalogs, news articles) distributed to **1,000 or more staff and faculty**, maintaining consistent brand voice across all digital channels.
- Managed content lifecycle for **5 or more faculty websites:** site mapping, link validation, and regular content refreshes. All while, improving information architecture and on-page user experience.
- Produced graphic design assets (banners, visual aids, training materials) using Adobe Creative Suite, supporting departmental campaigns and digital communications.
- Created **digital, web, and social media content**, supporting Arts Computing's student-facing communications and digital presence.
- Wrote and edited **technical documentation, web content, support materials, and user-facing communications**, translating technical information into clear, accessible language.
- Managed and maintained social media content such as; **digital graphics and promotional assets** to communicate programs, resources, and initiatives.
- Designed **UI graphics, icons, and digital assets** while collaborating with developers on technical implementation.
- Collaborated with cross-functional teams in an Agile environment using JIRA and Confluence to coordinate content delivery timelines and stakeholder approvals.

Technical Writer for B2B Content & Digital Communications (8 months) *Jan 2023 - Sep 2023*
Wind River Systems | Ottawa, ON

- Produced enterprise-grade B2B content for a global software platform, translating complex technical product information into audience-specific messaging for end-users, channel partners, and internal stakeholders.
- Created enterprise-level documentation for custom Linux distributions within a global embedded software environment
- Conducted comprehensive content audits across multiple product lines, identifying opportunities to improve messaging clarity, consistency, and audience alignment.
- Delivered research-driven presentations to support organizational content planning, building data-backed marketing narratives for executive and cross-functional audiences.
- Resolved HTML/CSS front-end issues and conducted structured UI testing, contributing to a measurably more accessible and engaging digital user experience.
- Facilitated the migration and reconfiguration of legacy documentation into DITA-compliant architecture, improving content modularity, reuse, and cross-team collaboration
